Much more than just a product, the Myers-Briggs" (MBTI") assessment is a highly versatile solution that has helped millions of people around the world gain a deep understanding of themselves and how they interact with others.

The Myers-Briggs assessment provides the reliable insights you need to improve the performance of your people, teams and organization. By creating a common language to easily communicate the complexities of an individual's personality, it supplies invaluable inputs for your ongoing team building, leadership and coaching, conflict management, career development and retention efforts.

But, achieving your performance goals doesn't have to be complicated. Providing easy-to-use, insightful reports - as well as a Web-based, learning-on-demand environment - the Myers-Briggs assessment is backed by people who can help guide you through the entire process.
